Power. Intensity. Velvet & iron.
Rich, commanding. Fight-night energy. The burgundy adds depth without softness — like a championship ring on calloused hands.

OPTION B

Gold & Forest

GOLD

ACCENT

FOREST

#C79F4A

#D9A432

#1E3C1E

BOOK YOUR SESSION

1-on-1 Personal Training · 60 min · \$75

9:00 AM

10:30

RESERVE SESSION

Grounded. Endurance. Earth & sweat.
Natural strength, disciplined calm. The forest green anchors the gold in something primal — iron pulled from the earth.

OPTION C

Gold & Gulf Blue

GOLD

ACCENT

GULF

#C79F4A

#D9A432

RESERVE SESSION

Precision. Speed. Cool confidence.
Athletic edge with restraint. The gulf blue adds depth without warmth — like brushed steel under track lighting.

Typography System

Hero font locked from the Stryv Society logo. Choose a subheader and body pairing below.

H1 — HERO / DISPLAY (LOCKED)

LOCKED — FROM LOGO

Matched to Stryv Society wordmark

Bold condensed display. Angular, aggressive geometry. Used for page heroes, primary CTAs, and section anchors only. All caps. Tight tracking.

BOOK YOUR SESSION

Rendered here with Bebas Neue as proxy — final will use exact logo typeface or closest licensed match (Industry Bold / Dharma Gothic / custom cut)

H2 — SUBHEADER OPTIONS (PICK ONE)

A

RECOMMENDED

Barlow Condensed

Semi-Bold 600 · Condensed width

PERSONAL
TRAINING THAT
DEMANDS MORE

Same DNA as the hero font — condensed, disciplined, athletic. Bridges display and body without competing. Works beautifully for section titles, card headers, and navigation.

B

Archivo

Bold 700 · Standard width

Personal Training
That Demands More

Wider stance, more authority. Geometric but warm. Creates stronger contrast with the condensed hero — good for dashboards and admin views where legibility at smaller sizes matters.

C

Oswald

Medium 500 · Condensed width

PERSONAL
TRAINING THAT
DEMANDS MORE

Classic athletic condensed. More open than Barlow, reads sportier. Pairs well with the hero but risks feeling too similar — use if you want a unified condensed system throughout.

BODY — BODY TEXT OPTIONS (PICK ONE)

A

RECOMMENDED

DM Sans

Regular 400 / Medium 500

No frills. No fluff. Just results. Book your next session in under 60 seconds. Choose your service, pick a time that works, and show up ready to work.

Geometric but soft. High x-height for mobile readability. Disappears into the background and lets the content breathe — exactly what body text should do.

B

Inter

Regular 400 / Medium 500

No frills. No fluff. Just results. Book your next session in under 60 seconds. Choose your service, pick a time that works, and show up ready to work.

The industry standard. Razor-sharp at small sizes. More neutral than DM Sans — slightly colder, slightly more technical. If you want "precision instrument" over "approachable."

C

Space Grotesk

Regular 400 / Medium 500

No frills. No fluff. Just results. Book your next session in under 60 seconds. Choose your service, pick a time that works, and show up ready to work.

More character than Inter, more edge than DM Sans. Monospace roots give it a technical flavor. Works well for numbers, prices, and time slots alongside prose.

Full Pairings

Each mock combines a color palette + recommended typography (Hero + Barlow Condensed subheader + DM Sans body). Shown at mobile scale.
