

StryvDash is a custom-built booking website for your training business. Instead of using a generic tool like Calendly, your clients get a sleek, branded experience that feels like YOUR gym — not someone else's software. Clients book and pay in under 60 seconds from their phone. You manage everything from a private dashboard.

HOW YOUR CLIENTS BOOK A SESSION

WHAT YOU CAN MANAGE

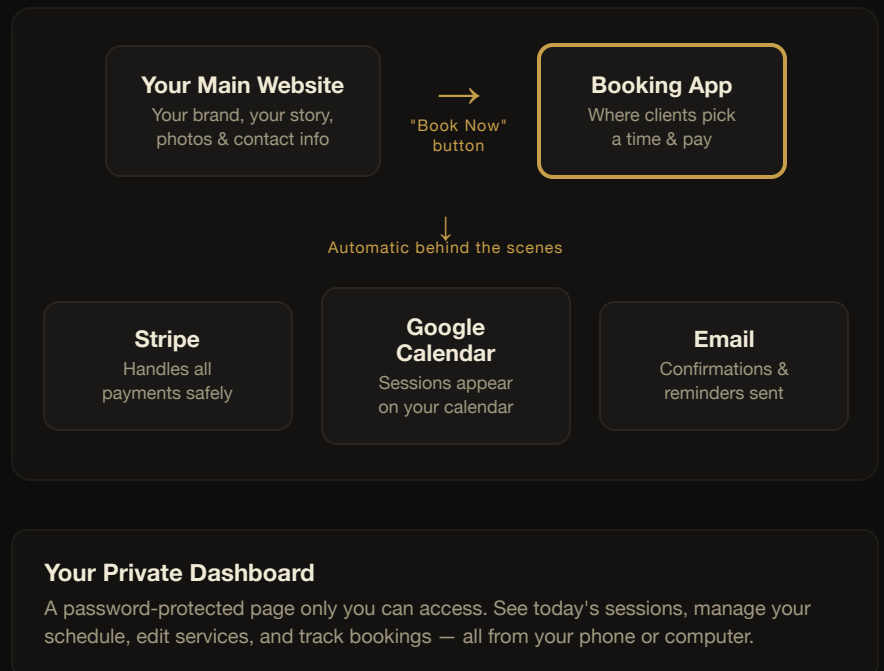

Your Schedule
 Set your weekly hours (e.g., Mon-Fri 6am-8pm). Block off vacation days or holidays. Clients only see times you're actually free.

Your Services
 Add, edit, or remove services anytime. Set the name, description, length, and price for each one. Changes show up instantly.

Your Bookings
 See today's sessions at a glance. View your full calendar. Every booking syncs to your Google Calendar automatically.

Payments & Cancellations
 Payments go straight to your bank via Stripe. Clients can cancel or reschedule through a link in their confirmation email. Refund rules are automatic.
